

# OKLAHOMA

What is Offered to  
the Capitalist and  
Homeseeker.

Products—About everything usual—  
grown anywhere in the temperate  
zone.

Water—We have the best watered  
country in Oklahoma: numerous  
springs and never-failing streams,  
while excellent well water can be ob-  
tained anywhere in the county, with  
at few exceptions, at depth ranging  
from 25 to 60 feet. We have no "gyp"  
water.

Timber—About one-fourth of the coun-  
ty, the southeastern portion is timber-  
ed, timber consisting of post-oak and  
hackberry, principally, except along  
the streams, where we have walnut,  
sycamore, burr-oak, cottonwood, elm,  
cedar and ash.

Prairie—About three-fourths of the  
country is prairie with sufficient tim-  
ber along the streams for fence posts  
and firewood.

Native Grasses—Blue stem is our  
principal native grass; it makes fine  
pasture and an excellent quality of  
hay, giving a yield of from one-half to  
one ton per acre. We have also the  
"bunch" and buffalo grass, the latter  
affording good winter pasturage.

Tame Grasses—Experiments have  
shown that clover and timothy can be  
successfully grown here, but our farm-  
ers have given but little attention be-  
yond experiments, to any of the tame  
grasses, except alfalfa, which is one of  
our most profitable crops.

Fruits—Nearly all kinds of fruit do  
well here, and we have numerous ex-  
tensive commercial orchards and vine-  
yards which net annual profits of from  
\$40.00 to \$75.00 per acre. We will  
doubtless have, in the near future,  
canning and evaporating establish-  
ments, making a home market for all  
our fruits and vegetables.

Yield, Per Acre, of Principal Pro-  
ducts—Corn, upland, 25 to 40 bushels;  
bottom, 45 to 75. Cotton, upland, one-  
half to one-half bale; bottom, one-  
half to one bale. (A bale is understood  
to be 500 lbs. lint, or ginned cotton.)  
Wheat, general average, 15 to 20 bush-  
els, on many farms averages of 30 to  
40 bushels have been frequently ob-  
tained. Oats 50 to 85 bushels. Kaffir,  
5 to 75 bushels. Broom corn, one-  
half to one-half ton. Castor beans,  
8 to 20 bushels. Potatoes, 75 to 125  
bushels. Peanuts, 50 to 60 bushels.  
Sweet potatoes give an immense yield.  
Melons, Georgia can't beat us on yield,  
size or quality. We supply the north-  
ern markets with early melons and  
ship late melons south. Alfalfa, 4 to  
6 tons, besides pasturage.

Wheat Pasturage—Our farmers esti-  
mate the wheat pasturage to be worth  
as much as the harvest crop. It  
keeps their stock in good condition  
from the middle of November until  
spring. Truck gardening is profitable  
here.

Poultry business pays well.

Dairying is equally good.

Climate and Altitude—We have an  
average altitude of about 950 feet, giv-  
ing us a pure, invigorating atmosphere.  
We have no marshy swamps, no ponds  
or lagoons of stagnant water, conse-  
quently we have but little, if any  
malarial sickness attributable to the  
climate.

Rainfall—During the last nine years  
we have had an annual rainfall of  
about 32 inches.

Mild Winters—As a rule our win-  
ters are mild; a freeze sufficient to in-  
terfere with plowing being a rare oc-  
currence.

Summers Cool and Breezy—With  
but few exceptions through our long  
summers we have no excessively hot  
weather. While the mercury gets up  
occasionally to three figures, the heat  
is never oppressive, owing to the con-  
stant cool south breezes.

Schools—Four school districts in  
each township, with good school build-  
ings; free schools, school age, 6 to 21;  
uniform system of text books; length  
of term, 6 to 8 months; separate  
schools for the races with equal facili-  
ties for white and colored. (Colored  
population, outside the towns, confined  
principally to three or four townships  
in the timbered region). The leasing  
of sections 16 and 36 in each township  
throughout the territory, together with  
something near 200,000 acres of inden-  
tured school lands, for the benefit of  
the common schools, brought to this  
land during the last two years, 3,94  
per capita of the scholastic population.

Land Values—In the timbered re-  
gion, the southeastern part of the coun-  
ty, prices range from \$10 to \$20 per  
acre, for upland; \$25 to \$35 for bot-  
tom; prairie, uplands, \$10 to \$25; bot-  
tom, \$25 to \$40, according to quality,  
location and improvements.

# CASTORIA

The Kind You Have Always Bought, and which has been  
in use for over 30 years, has borne the signature of  
*Chas. H. Fletcher* and has been made under his per-  
sonal supervision since its infancy. Allow no one to deceive you in this.  
All Counterfeits, Imitations and "Just-as-good" are but  
Experiments that trifle with and endanger the health of  
Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Pare-  
goric, Drops and Soothing Syrups. It is Pleasant. It  
contains neither Opium, Morphine nor other Narcotic  
substance. Its age is its guarantee. It destroys Worms  
and allays Feverishness. It cures Diarrhoea and Wind  
Colic. It relieves Teething Troubles, cures Constipation  
and Flatulency. It assimilates the Food, regulates the  
Stomach and Bowels, giving healthy and natural sleep.  
The Children's Panacea—The Mother's Friend.

You Can—Sell your 160 acre farm  
in the cold northwest, and with the  
proceeds buy 320 acres down here.  
Why Not—Land on which you can  
make just as much, acre for acre, as  
can be made on land up there.  
Advantages Claimed—Milder and  
shorter winters, cooler summers, more  
healthful climate, greater diversity of  
products. Good water and wheat pas-  
turage are some of the advantages we  
claim.  
Great Inducement—While the cer-  
tainty that lands here will double in  
value in a few years, should be a still  
greater inducement for buying now.  
Guthrie the Capital—Guthrie, the  
county seat of Logan, is the capital.  
Railroads—She has three railroads;  
five more are being rapidly constructed,  
and two more still are being sur-  
veyed and will be built in the near  
future.  
She has a population of 20,000 and  
is growing rapidly; has water works,  
owned by the city; sewerage system,  
electric light and power plant soon to  
be established, contract let for paving  
business streets, \$25,000 city hall, \$25-  
000 library building, \$50,000 Masonic  
temple, an elegant opera house, church  
and school buildings second to none in  
the southwest, appropriation made for  
a \$100,000 federal building, cottonseed  
oil mill, flouring mills, cotton gins,  
planing mill, two ice factories and  
cold storage plants, bottling works,  
creamery, iron foundry, cigar factor-  
ies.  
Six Banks and Various Industries—  
Six banks, five large wholesale mer-  
cantile houses, retail stores too num-  
erous to mention, marble works, brick  
yards, publishing houses, one of which  
is the largest south of Kansas City,  
two daily papers and five weeklies,  
three beautiful parks, belonging to the  
city, ten acre reserve for state house

## CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or sore-  
ness of the membrane or lining of the nose, discharge of mucus matter,  
headaches, neuralgia and difficult breathing, and even in this early stage  
is almost intolerable. But when the filthy secretions begin to drop back  
into the throat and stomach, and the blood becomes polluted and the  
system contaminated by the catarrhal poison, then the sufferer  
begins to realize what a disgusting and sickening disease Catarrh is.  
It affects the kidneys  
and stomach as well as other parts of the body. It is a constitutional  
disease and as inhaling mixtures, salves, ointments, etc., are never more  
than palliative or helpful, even in the beginning of Catarrh, what can  
you expect from such treatment when it becomes chronic and the whole  
system affected? Only such a remedy as S. S. S. can reach this obsti-  
nate, deep-seated disease and purge the blood of the  
catarrhal poison. S. S. S. purifies and builds up the  
diseased blood, and the inflamed membranes are  
healed, and the excessive secretion of mucus ceases  
when new, rich blood is coming to the diseased  
parts, and a permanent cure is the result.  
S. S. S. is guaranteed purely vegetable and a reliable remedy for  
Catarrh in all stages. Write if in need of medical advice; this will cost  
you nothing.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

and capital grounds, etc., etc.  
And Guthrie is not only the capital,  
not only a railroad center, but is a  
trade center as well; the great com-  
mercial metropolis of a vast agricul-  
tural, stock growing and mineral re-  
gion.  
Nine Railroads—They will bring us  
cheap coal and cheap lumber and give  
us low freight rates on everything  
shipped in and out. They will also in-  
duce enterprising capitalists to en-  
gage in various manufacturing enter-  
prises here.  
Packing House—A packing house in  
Guthrie is one of the necessities of the  
near future. The nearest packing  
house is that at Wichita, 140 miles,  
the next nearest being Ft. Worth, 250  
miles. We have the cattle, the hogs  
and the sheep and will soon have the  
necessary shipping facilities.

PUT YOUR SAVINGS IN OUR  
HANDS,  
and they will be safe, useful and with-  
in your reach at any time.  
THE GUTHRIE NATIONAL BANK  
is a financial institution of such stand-  
ing that it merits the confidence of all  
who have money to deposit.

AN AFTER DINNER CIGAR  
Ought to be a good one, because the  
smoke after dinner is the best smoke  
of the day. We have that kind in  
large variety, mild, strong, and med-  
um, in both domestic and imported  
tobacco. Drop in and get one today.  
Sportsman's Goods.  
Did you say. Yes we carry a nice  
line of guns, rifles, pistols and am-  
munition. You ought to see some of  
the new things in automatic pistols  
and rifles they are as far in advance  
of the arms you have been using late-  
ly, as they were ahead of the old  
powder and ball guns used before the  
war of '61.  
Playing cards, chess, checkers and  
dominoes.
